

# INSTANT BALANCE CHEAT SHEET

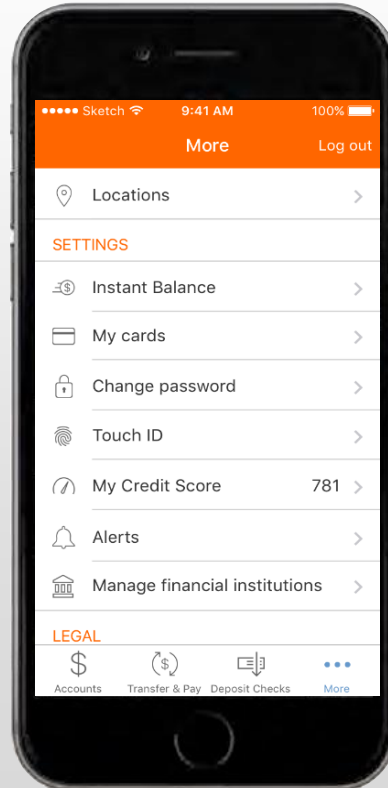

CHECK YOUR ACCOUNT BALANCE INSTANTLY, WITHOUT EVER NEEDING TO SIGN IN

## HOW TO SETUP INSTANT BALANCE

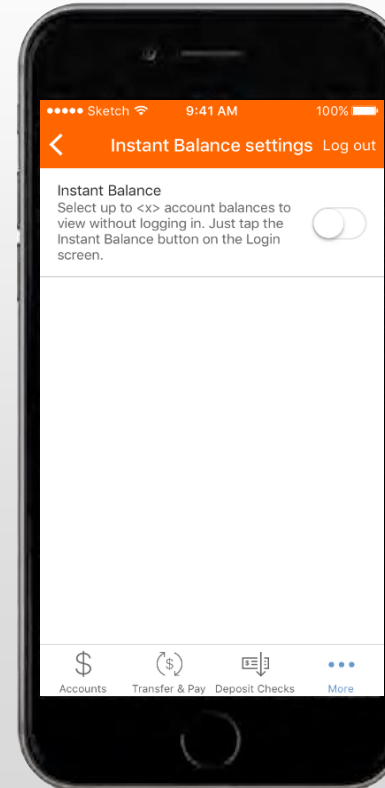

To enable Instant Balance, tap on the “Instant Balance” button at the top of the login page. First time users will be prompted to log in and enable the feature. Type in your User ID and Password to continue.

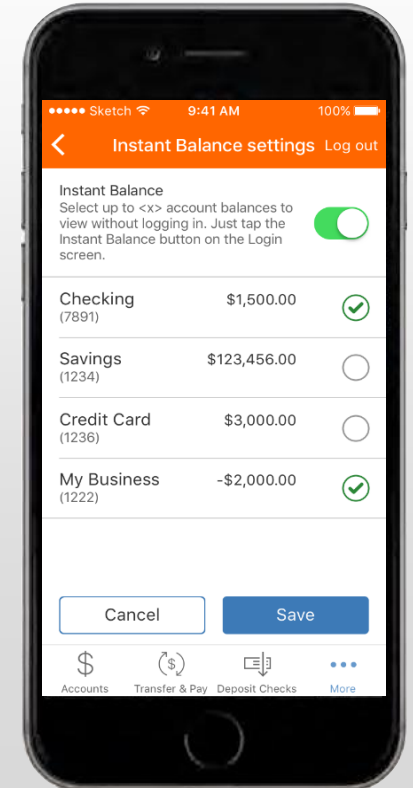

After logging in, tap the “More” tab at the bottom right of the screen. Under settings, tap the “Instant Balance” button.

Toggle on the switch at the top of the Instant Balance settings screen and select the accounts you would like to preview (up to 6 accounts).

Once you have the accounts selected, make sure to save your changes. The next time you arrive at the login page, simply tap the Instant Balance button to preview your balances.

## HOW TO CHECK YOUR ACCOUNT BALANCES WITH INSTANT BALANCE

After opening the app, tap on the “Instant Balance” button at the top of the screen.

After tapping the button, you will be given a balance overview of the accounts you selected in your Instant Balance settings. Your balances are shown similar to the screen capture below.

To return to the login page, simply tap the back arrow in the top left of the screen. After tapping this button, you can log in to the app for more mobile banking app features.
